parasail

WHO WE ARE ?

Hovel International, India was formed in June 1990 and has grown into a major Parasail Manufacturer in India. The Hovel International has improved and develop original 16 Panel (Brian Gaskin Design) Parasail into a more efficient and high lift in nil wind. Since 1990 to the present time Hovel International develop the basic design and style and now accepted a World's one of the best, the development is still going on. This helps us to fly safer and heavier payload in a safer environment.

The Parasail can be fly on water and surface both with the same design without alternation. We also keep the interest of our customer and want the best from our Parasail also put our idea for the safety and improvement flying of the Parasail and keep the customer to get best of our quality, long last and outstanding services. The design and construction of our Parasail is simplified of 16 Panels Interconnected Lines, Tow Yoke and Harness is created performance and stability.

Humans have always dreamed to be up in the air with wings. Now hovel international can help amateurs weighing between 40 kgs to 140 kgs release this ambition. No advance training or special skills is needed and the game is not expensive enthusiasts of this sport could share the excitement without risk, under an open parasail they swing in the air through the aid of A special rope hooking them to A jeep. As the jeep moves, the parasail opens up and flier is high up in the air. When the flier is release from the rope parasailing runs with paragliding and the landing is safe again.

WHAT DO WE OFFER :

Hovel International India is a market leader in parasailing equipments, services and facilities managment.

Man being terrestrial by nature, the idea of flying high and diving deep in the blues has always held tremendous fascination for mankind. This intriguing wish has given birth to adventure sports. The adventure sports mania has recently rooted in the Indian scenario. Young generations always have a liking for adventures. They are always on the lookout for experiences that will get their pulsations racing. And an adventure sport caters to this very need for adrenaline surge.

We have been conducting and manufacturing equipments for all types of Adventureous Activities like Parasailing, Trekking, Hot Air Ballooning, Zorbing, Trampoline Bungee, Repelling, Flying Fox, Water Ball, Commando Net, Day Camping etc.

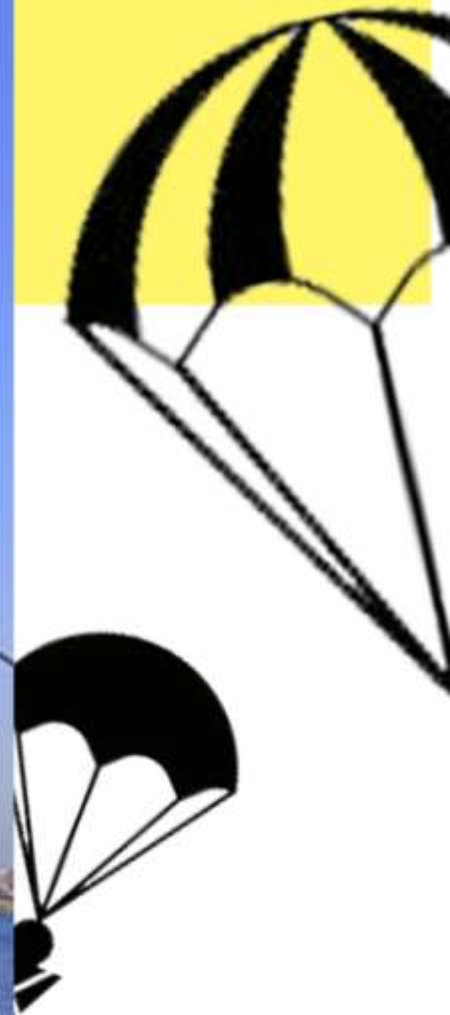

PARASAILING

If you want to experience the thrill of skydiving, but not quite ready to jump dive 4000 feet, then parasailing will give you wings.

Parasailing is a thrilling sport. If you are not quite convinced then check your pulse after doing it.

HOT AIR BALLOONING

How about floating in the air with almost no support. Sounds exciting? Then here is your chance.

An unforgettable experience. Memories to last a lifetime.

RAFTING

It's exciting. It's exhilarating. It's Mother Nature's roller coaster!!

Rafting appeals to adventurers from all walks. Though a leisure sport, white water rafting can be quite challenging.

ZORBING

Ever wondered what it is like to be stuck in a giant washing machine. A zorb-ing experience is pretty much like that.

It's wacky! It's weird! It's wonderful! And the best part it can be done both on land and on water.

ABSEILING

It is an activity for the thrill seekers!!

It has become an activity in its own right. It is all about using a rope and other specialized equipments to descend a cliff.

ROCK CLIMBING

Rock climbing for some is to challenge their spirit and explore new heights, to give a fill up to their unbounded imagination.

It's an activity in which participants climb up, down or across natural rock formations or artificial rock walls.

PARAGLIDING

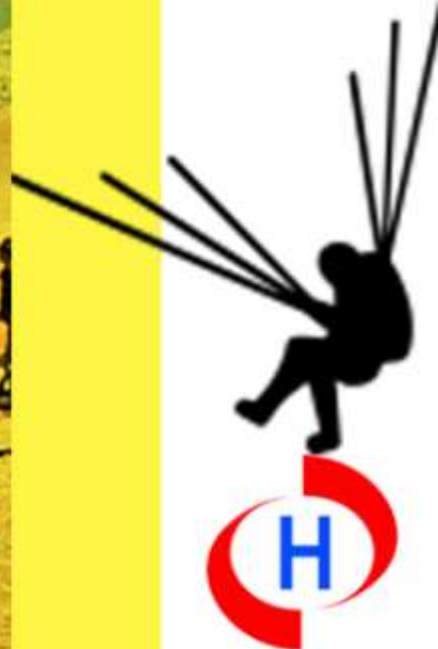

A paraglider is a free flying, foot-launched aircraft.

With paraglider, you can fly like a bird, soaring upwards on currents of air.

It is the easiest, quickest and simplest way to be airborne, explore any area at will and enjoy mesmerizing views which are exclusively reserved for birds! For those who can open their minds to the endless adventures of a jetpack on your back, paramotoring will convert your imagination into reality.

Paragliders routinely stay aloft for 3hrs or more.

MICROLIGHT FLYING

Microlight is a kind of aircraft which is of light weight and can be easily flown with basic flight controls.

It is mostly used for recreational and adventure activities. Here's an opportunity for you to get the lifetime experience of Microlight Flying.

SKY DIVING

There is nothing that compares to the world's most exciting sport, skydiving.

Advances in equipment and training have made it safer and easier for more people than ever to enjoy the incredible experience of falling from an airplane or surfing the clouds under a modern sport parachute.

An unforgettable experience. Memories to last a lifetime.

BUNGEE TRAMPOLINE

Fulfill dreams of defying gravity with simply the best events incredible, Bungee Trampoline!!

Have them, burn some energy and have fun on the bungee trampoline.

Providing a strong focal point for any fun day or team building event, the bungee trampoline consistently has a never-ending queue of eager participants next waiting to be flying towards the heaven.

ROPE COURSE

HIGH COURSE

Have fun, test your courage and overcome your fears; this is what rope course is all about!!

The course is an excellent stimulus for team and confidence building programs.

The participants run the total of increasing difficulty level with each trail consisting of various high and low elements decreasing different aerobic movements.

The high elements consist of Double Rope Bridge, Burma Bridge, Commando Net and Flying Fox or Zip Line.

ROPE COURSE

LOW COURSE

Its time to play in the jungle

Tarzan swing, a free jump from a high platform with a big pendulum-like swing.

River / Valley Crossing is the technique of traversing across two high points by means of a rope stretched between them.

This is an extreme activity which is ideally suited for a novice in adventure sports.

Monkey Crawl is an adventure activity that requires strength and stamina
